### Intent & Function of Job Descriptions

---

*Job descriptions assist organizations in ensuring that the hiring process is fairly administrated and that qualified team members are selected. They are also essential to an effective appraisal system and related promotion, transfer, layoff, and terminations decisions. Well-constructed job descriptions are an integral part of any effective compensation.*

*All descriptions have been reviewed to ensure that only essential functions and basic duties have been included. Peripheral tasks, only incidentally related to each position, have been excluded. Requirements, skills and abilities included have been determined to be the minimal standards required to successfully perform the positions. In no instance, however, should the duties, responsibilities, and requirements delineated be interpreted as all-inclusive. Additional functions and requirements may be assigned by supervisors as deemed appropriate.*
